

City of Roanoke Environmental Policy

Understanding the need to be good stewards, Roanoke government is committed to the protection of the environment while providing first class municipal services to our citizen and visitors.

To demonstrate its commitment, the City of Roanoke will:

- **Comply with all applicable environmental legislation, regulations and internal requirements, and municipal standards**
- **Educate and train our city employees for improved environmental performance and increased awareness of environmental issues**
- **Practice the principles of prevention of pollution**
- **Continue to improve our environmental management system and make it an integral part of our standard business practices**
- **Set and periodically review environmental objectives and targets**
- **Identify and implement methods to reduce the generation of solid and hazardous waste**
- **Encourage and increase citizen awareness and involvement in efforts to protect the environment**

This commitment to protect the environment is required of all city employees at all levels.

Resolved by Action of the Council of the City of Roanoke, 2000.
